

BOT-ALL LITE

Description

The Lite bottle is meticulously Crafted with a PS plastic outer layer and a 304 stainless steel inner layer renowned for its exceptional resistance to rust. It ensures durability and effective insulation for your favourite beverages. This bottle adds a touch of sophistication to your on-the-move moments with its compact size and exuding elegance through its design. Moreover, the material used in its construction has obtained approval from both the FDA and EU, guaranteeing that it is non-toxic and completely safe for storing beverages. Its generous 500ml capacity offers ample space to keep you hydrated throughout the day. With its lightweight construction and car cup holder-friendly design, the Lite becomes your ideal partner on daily commutes, office or home.
