

BOT-ALL HYDRA

Description

The Hydra bottle is expertly made from high-quality 18/8 stainless steel, specifically 304 food-grade material. This type of steel is renowned for its exceptional rust resistance, ensuring both durability and the preservation of beverage flavor. Approved by the FDA and EU, it is non-toxic and safe for storing beverages.

With a generous 750 ml capacity, it quenches your thirst, while its convenient 80mm diameter and 240mm height make it easy to carry on any adventure.
