

## BOT-ALLSPECTRA

### Description

The Spectra bottle is expertly crafted from premium 18/8 stainless steel, a 304 food-grade material known for its exceptional rust resistance. This ensures unparalleled durability and preserves the flavor of your beverages. Additionally, the materials used are FDA and EU approved, confirming they are non-toxic and safe for beverage storage. With an impressive 500 ml capacity, it quenches your thirst, while its dimensions of 74mm in diameter and 260mm in height make it easy to carry on all your adventures.
